*Because we do not yet have a new contract, teachers will be placed on the salary schedule based on the **Triborough Amendment** to the NYS Taylor Law.

*To determine your temporary salary increment:

1. Find your June 2026 pay stub. Look at the gross salary you were being paid at the end of the 2025–26 school year.

2. Find that salary on the salary schedule. This will show you the step you were on last year.

3. Move down one step on the salary schedule. That new step will indicate your salary for the 2026–27 school year until it is further increased by current negotiations.
